DETAILED ACTION

This application claims benefit to provisional application 60/105,180, filed October 22, 1998.

Applicants amendment filed June 23, 2004, has been received and entered. Claims 2, 3 and 9 have been amended. Claims 2, 3 and 9 are pending and currently under examination.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kathleen A. Tyrrell on September 1, 2004.

The application has been amended as follows:

Amend claim 9 to read

9. An oligonucleotide probe fully complimentary to a sequence comprising a hMLH1 mutant 1, a hMSH2 mutant 1, a hMSH2 mutant 2 or a hMSH2 mutant 3.

Art Unit: 1632

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The instant specification teaches genetic variants of hMLH1 and hMSH2 that are associated with hereditary non-polyposis colorectal cancer. The sequences of hMLH1 and hMSH2 are provided and the specific mutations claimed are set forth in Table 1 and specifically defined on page 17, lines 1-16. As indicated previously, the specific mutations are free of the art of record because the art failed to teach each of the specific mutations. Moreover, while these genes have been associated with colorectal cancer and other variants have been described in the prior art, this is the first disclosure of the claimed sequences being specifically associated with a form of colorectal cancer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Woitach whose telephone number is (571) 272-0739.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Deborah Reynolds, can be reached at (571) 272-0734.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group analyst Dianiece Jacobs whose telephone number is (571) 272-0532.
